About This Game

About the game:

- A short story driven adventure about a lonely robot and its destiny.
- A variety of puzzles, encounters with dangerous enemies and fascinating investigation.
- Find out what happened to our planet after the global catastrophe.

1968. «Due to the development of industry, some prominent scientists have expressed concern about the state of the earth's atmosphere. In their opinion, the problem is the increase of concentration of freons and nitric oxide in the atmosphere, which are detrimental to the ozone layer. The destruction of the ozone layer can lead to serious consequences for the ecology of the planet: an increase in the intensity of ultraviolet radiation, the formation of new desert areas and lower yields». *From the journal "Science for the curious".*

2006. «More and more well-known experts say that the problem of ozone holes is only an element of political and economic war, but does not pose a specific threat to humanity». *From the newspaper "Environmental news".*

2048. «The scale of the ecological catastrophe seems to be irreversible. It is not recommended to be in the area of direct sun exposure without extreme necessity». *From the reports of news feeds.*

2054. «Global migration of people from areas with high radiation cause a serious problem for world security». *From the UN report.*

2056. «Delta Dynamics has proposed a revolutionary solution to the problem of the earth's ozone layer destruction. It is planned

that the company's robots will restore the ozone layer in areas with the greatest danger. The project has already allocated more than \$ 2 trillion from the Reserve Fund». *Global World Flow*.

An amazing enthralling story that can be played over and over and over and over (where was I, ow ya) again. But in all honesty, I can't recommend this game enough and also you could probably run it on a toaster so there's that.. This game used to be really good during before and up to alpha 16, but alpha 17 came along, and it kinda killed it. The grind for building a base is atrocious, skills are level locked which really limits what you can do, and is honestly annoying. Would be better if they were just skill point locked instead. Furthermore, no matter how good of a base you build, it is basically trash, no point in building anything. Its not a base building survival game anymore. The best thing to do is just level up now, and becomes a zombie grind fest. I would really want to get back into it to test out the electricity stuff, but I just can't with these changes that make everything pointless.

. Hi. Great game but I was would use possibility to move building and thinks somehow cause if u missplace somethink or wanna change it later u cant do it anyhow. Plus some building pictures are wrong too. But i understnad ist just earlyaccess so its fine. Great game agian :). Oi m8! This game is well good innit roit!? You got a loicence to make games this good m8!? Did you slav or did you lose?. Cool game made by a cool guy! The dragon level is amazing! Highfive for the Cheesehound rebelcow!

Gravitate away from this bad video game.. One of my favorite pages is 23 1920.png

They are crying in the cinema!

It reminds me that I watched "Interstellar" with two friends in 2014, the happiest day of my life in those years.

I remember how we cried in the cinema.

The three of them are so cute!. You herb about this game, it is absolute quali~tea! The difficulty is steep, the bosses are boiling mad, and the victories are sweet as honey. These enemies will milk your sanity, but decant stop you. Cuphead is a brew-tea-ful game.. A very good hidden object game with challenging puzzles, neat characters, good voice acting, and a clear and engaging central story line. Will be looking for more games from this Croatian developer. Looks like Artifex Mundi has some competition!. Great VR game. I find the gun mechanics work well, and overall a very fun game!. Very boring fly catching simulator with some weird Christian babblings at the end.

Not what I'd call a game and I feel I wasted my time with this one.
